

The Non-Credit Service buyers on this list have an approved buying brand and have been granted a market access card within the last 15 months. Their details are checked each year against the information provided on the market access card renewals. They are not approved for credit by the Brismark Credit Service and it is recommended that they be served on a cash only basis.

Note: Brismark does retain information on all businesses that have been issued with an approved buying brand. However Non-Credit Service buyers that do not renew their market access card generally do not update their business details and their details may be out of date. Therefore buyers that have not updated their details in the last 15 months are not included on this list. A separate list of these buyers has been included on this site (see selection Non-Credit Credit Service Buyers-without a market access card).
